

River Rok Combination Colors Calculations

(15x30 Area rectangular Pool with 3-6FT depth given as example)

1. Divide the total square feet 855 divide by coverage of each River Rok bag 18 Sq. Ft.

2. 47.5 Round up the total to the multiple of 10. (50)

3. Divide (40) by 10 = (4)

4. Multiply the result (4) by each color in the combination **Lagoon** for example.

- 6 Calm Sea x 5 = 30
- 2 Emerald Black x 5 = 10
- 2 Granite x 5 = 10

30 + 10 + 10 = (50)* Total bags required

Harbor Gray	8 Granite + 2 Emerald Black
Blue Opal	8 Lucayan Blue + 2 Emerald Black
Baha Sand	6 Lucayan Blue + 4 Emerald Black
Lagoon	6 Calm Sea + 2 Emerald Black + 2 Granite
Aspin Mist	1 Calm Sea + 9 Imperial White
Pacific Pearl	1 Pebble Beach + 9 Imperial White

Calculation by Bags

¿Know the Number of Bags?

(15x30 Area rectangular Pool with 3-6FT depth given as example)

1. If you need 38 bags Round to multiple of 10 (40)

2. Divide (40) by 10 = 4

3. Multiply by each color in Combination **Harbor gray** for example.

- 8 Granite x 4 = 32
- 2 Emerald Black x 4 = 8

32 + 8 =40* Total bags required

**it's recommended you Add 10% more product to this total for security. (4) Bags.*
