DIAMOND BRITE® EXPOSED AGGREGATE FINISHES

Diamond Brite Finishes are blends of selected quartz aggregates and fortified white Portland cement ideal for new or re-finished swimming pools. Available in a variety of colors and textures, Diamond Brite finishes are factory blended to provide the pool owner with an extremely durable and attractive alternative to traditional pool coatings.

ADVANTAGES

- ◆ Improved Bonding
- ◆ Reduced Water Penetration
- ◆ Increased Hardness
- ◆ Smooth Non-skid Surface
- ◆ Consistency
- ◆ Durability
- ◆ 10 year Warranty
- ◆ Etch Resistant
- ◆ Stain Resistant

Swimming Pool, Spa & Deck Finishes

River Rok is an advanced, revolutionary blend of selected natural aggregates, premium and natural stones, performance enhancing additives and fortified Portland Cement. The idea was formulated to provide a tougher, attractive and time resistant surface for pool interiors. River Rok retains it's original finish and beauty even after years of exposure to nature's harsh elements.

Why River Rok?

- Versatile Design Options
- Slip Resistant
- Computerized Batching
- Exceptionally Durable
- Etch & Stain Resistant
- Ease of Maintenance
- Certified Applicator Program
- Manufacturers Warranty

Durazzo Polished Marble Pool Finish

Durazzo is a state-of-the-art, pre-blended pool plaster designed to provide an exceptionally smooth, colorful and long lasting finish. Durazzo's unique formulation of the whitest marble aggregates, highest quality colored quartz, Portland cement and performance enhancing admixtures provide an extremely durable and attractive alternative to traditional pool coatings.

One-Step SPRAY DECK

DECORATIVE CONCRETE FINISH

One-Step Spray Deck is a pre-blended decking system that incorporates dry resin technology eliminating the need for liquid additives. One-Step Spray Deck is sprayed or trowel-applied over new or existing concrete surfaces. Available in 12 colors, plus white, this product is designed for use on new or existing commercial walkways, driveways, pool patios and similar decks.

Swimming Pool, Spa & Deck Finishes

One-Step **BOND KOTE**

Single Component Surface Preparation System

SGM One-Step Bond Kote is a unique super polymer-modified one part cementitious coating that incorporates dry resin technology, eliminating the need for liquid additives. One-Step Bond Kote is an ideal substrate to mechanically bond pool plaster over existing plaster or concrete finishes.

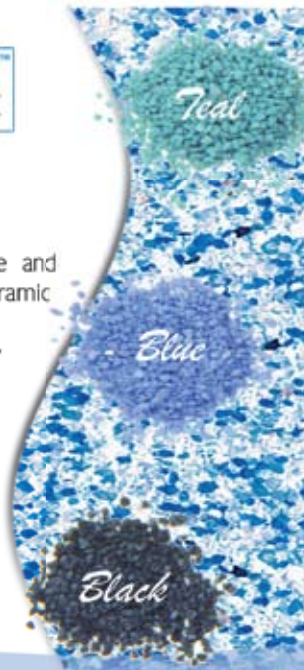

Why is One-Step Bond Kote the preferred choice?

- ▶ New dry blend polymer technology for superior bond strength
- ▶ Spray or roller applied
- ▶ Virtually eliminates delamination
- ▶ Saves time & labor

SGM's Diamond Quartz brings nature and technology together by combining ceramic coated quartz crystals with rich vibrant colors to bring lasting beauty to swimming pool interior surfaces, which are mixed with traditional plastering materials on the jobsite by the contractor.

SGM Diamond Quartz does not bleed, rust or fade in the harsh swimming pool environment.

Seminars

We offer AIA-CEU classes and coordinated on-site training in conjunction with classroom instruction in order to provide an integrated understanding of exposed aggregate finishes and the techniques employed to ensure superior results every time. Please contact us for more information.

Support

We offer more than an impressive selection of exposed-aggregate and traditional marcite finishes boasting the latest advances in leading-edge technology. We also provide real-time and online support for pool professionals, as well as compelling marketing materials directed toward the end consumer. A wide array of marketing and technical materials like product catalogs, lavish promotional brochures, sample tile kits for each of our lines, sample display boards, product information sheets, and product installation DVD's all help produce enhanced results for the marketing effort expended, making sales efforts all the more productive.

In addition, Southern Grouts & Mortars understands the importance of having qualified knowledgeable technical support and customer care. Our staff advises architects, engineers and contractors in the preparation of detailed methods including assisting with specification writing, recommendation of installation materials and detailing the features and benefits of SGM products.

Customer and Technical assistance is just a phone call away 800-641-9247. You can also visit our web site at www.sgm.cc to learn about new innovations, technical support, e-mail and product information.
