

SGM, Inc. is expanding its offerings by adding four products that clean and/or seal brick pavers, concrete and other cementitious floor type substrates.

Masonry Cleaner & Efflorescence Remover

Southcrete Masonry Cleaner & Efflorescence Remover safely and quickly cleans a variety of cementitious substrates, such as Masonry, Concrete, Brick Pavers, River Rock, Architectural Concrete, Retainer Walls, etc., while dissolving all signs of efflorescence. This special synthetic acid formula dissolves more calcium carbonate and efflorescence than muriatic (hydrochloric) or phosphoric acid based cleaners. This cleaner can be used to prepare stone and masonry surfaces for clear sealers, stains or paints, or simply restore the original beauty and natural look.

2 Part Southcrete Paver Seal Waterborne Acrylic Urethane

Waterborne Acrylic Urethane Clear is a high performance 2-part clear sealer and finish that delivers unparalleled protection for pavers, decorative concrete, floors, walkways and other painted surfaces. The hard crystal clear film will withstand heavy use from vehicles and commercial traffic. It is resistant to most solvents and chemicals. Enhances the color of pavers and decorative concrete, and will not yellow. Ideal for interior and exterior use.

Southcrete Brick Paver & Concrete Sealer

Solvent Acrylic

Southcrete Brick Paver & Concrete Sealer is a premium quality, solvent borne acrylic sealer that is designed to penetrate and seal bare cementitious substrates. Its attractive gloss finish not only enhances and darkens unsealed pavers to give them a rich “Wet Look” finish, but also provides a superior toughness and durability that protects against the penetration of moisture, oils, grease stains, and other damaging or discoloring agents. *Note:* Do not use on Epoxy Chattanooga or other solvent sensitive surfaces. Southcrete Paver & Concrete Sealer may be used on the following properly prepared substrates: Brick Pavers, Stamped Concrete, Brick, Driveways, Walkways, Decorative Stone, Floors, Concrete Chattanooga, Garage Floors, Patios.

Southcrete Aqua Clear

100% Acrylic Waterproofing Paver Sealer / Finish

Southcrete Aqua Coat 100% Acrylic Paver Sealer/Finish is a specially formulated clear sealer/finish specifically designed for application to brick pavers, concrete floors, and other cementitious floor type substrates. Its special 100% acrylic resin formulation provides a durable finish that penetrates and seals the surface, while protecting the surface from powdering, oil and grease stains, and it resists moisture penetration. Easy to apply, it provides superior wear resistance, excellent adhesion, product versatility, and provides superior UV light resistance. Its rich gloss finish enhances the color of brick pavers, resists hot tire pick-up, seals and waterproofs the surface, and is VOC Compliant.
