MORTAR MIX
Pre-Blended Mortar Type S

SGM Mortar Mix is a computerized blend of special high strength masonry cement, proprietary admixtures and sand, developed to produce a consistent quality mix from batch to batch eliminating costly job-site mixing of these components. SGM Mortar Mix is conveniently packaged in 60 lb (27.2kg) and 80 lb (36.3kg) 4-ply polyethylene lined bags and custom palletized for easy handling and movement on the job-site. Use for laying block, stone, tuck-pointing, scratch, brown or finish coat stucco. Mortar Mix is ideally suited for use as a substrate for hard surface flooring both interior and exterior applications.

- Block
- Masonry
- Brick
- Tuck Pointing
- Stucco
- Plaster
- Parge Coats
- Underlayments
- Stone
- Cultured Stone

CLEANING:
Water is all that is required to remove uncured mortar.

COVERAGE:
For setting block:
